

# Book of Lists

The Book of Lists, published by The Slovak Spectator since 1999, is an annual English-Slovak publication offering contact details and basic information for over 1,000 firms (categorised by sector), state institutions, professional associations and chambers. For each significant company, organisation or state institution operating in Slovakia, basic characteristics about their structure, activities and services are provided along with names of principal officers and phone numbers. And the information is assembled in more than 50 subcategories, with listings arranged alphabetically. The Slovak Spectator also provides an internet version of the Book of Lists, with less extensive information, on its website: [greenpages.spectator.sk](http://greenpages.spectator.sk).
